WORK EXPERIENCE

GAME DEVELOPER

Apr 2025 - Present

VNGGAMES

- Led development of **4 Roblox games** as Technical Lead, including one title that achieved **10,000 peak concurrent** users and surpassed **14 million total visits**.
- Managed cross-functional collaboration with Product Owners and art teams to align technical implementation with product vision and creative requirements.
- Established **development workflows and technical processes** to streamline production and improve team efficiency.
- Oversaw **task allocation and sprint planning** for the development team, consistently delivering projects on schedule while maintaining code quality standards.

GAME DEVELOPER

Oct 2024 - Apr 2025

Ace Galaxy Studio (SUGA Group)

- Work directly with Product Owners/Designers to create gameplay for mini/puzzle games, casino games, landing pages, and websites.
- Analyzing and designing systems or frameworks, and conduct research based on project requirements.

Technologies: Cocos 2D, TypeScript, Java

PROJECTS

GAME DEVELOPER

Jun 2023 - Sep 2023

LEGEND OF SON TINH

Team name: 268LTK

Team size: 6

Technologies:

Unity2D, Aseprite

- Implemented character movement mechanics for fluid gameplay.
- Developed the UI/UX system for an intuitive player interface.
- Crafted detailed level designs that align with the game's narrative.
- Created a save system to maintain player progress.
- Designed characters and props, contributing to the game's visual appeal.
